 - b. **Chapter 2** provides a brief of methodology adopted for CPI linked tariff revision;
 - c. **Chapter 3** provide Tariff Schedule applicable for the consumers for FY 2023-24;
 - d. **Chapter 4** provides details of the Directives of the Commission for compliance by TANGEDCO.

2 METHODOLOGY ADOPTED FOR TARIFF REVISION

2.1 BACKGROUND

2.1.1 In the previous Tariff Order for TANGEDCO, the Commission has stated the following methodology for revision of tariff for the remaining years of the Control Period:

*“5.1.2 An inflation indexed approach is approved for the tariff, considering the annual increases in Average Cost of Supply. Looking at past trends, the **general Consumer Price Inflation (CPI) index** seems to be a convenient fit, as the past annual CPI inflation rates are in the range of 4.9-6.3%, between 2018 and 2022. It is also to be noted that irrespective of CPI inflation, **actual annual increase is capped to 6%**.”*

*5.1.3 The Commission shall adopt **CPI index of April 2023** compared with **CPI index of April 2022** to arrive at the escalation rate **OR 6% whichever is lower** and revise the tariff schedule. Similar process shall be continued for the remaining years of control period. ”*

2.1.2 Though it was decided to adopt the escalation rate comparing with the April 2023 and April 2022, for the revision of tariff to take effect it from 1st of July 2023, as per the policy directive of the Government of Tamil Nadu vide Lt.No.4660/C2/2023 dt.30-06-2023, the Commission decided to compare the General CPI Index of April 2023 with the index for the month of August 2022. Accordingly the prevailing tariff has been escalated to the extent of such percentage comparing the Index rate prevailing in August 2022. However, the inflation of tariff for the ensuing years shall be based on formula stipulated under para 6.1.1.13 and para 6.2.1 (m) of the Tariff Order No.7 of 2022 dated 09.09.2022.

2.1.3 The above methodology has been implemented in this order.

2.1.4 EV Charging Infrastructure

2.1.4.1 The Commission has determined the tariff for EV charging, vide para 6.1.7 and 6.2.16 of the T.O.No.7 of 2022 initially for the FY 2023-24 enabling to adopt the emerging scenario in tariff and revise according to the prevailing policy of Government in future. Now in accordance with the Para 5.1.2 of the Tamil Nadu Electric Vehicle Policy 2023, Commission, re-determines the tariff for the supply to EV charging facility in this Tariff Order such a way to incentivize the EV usage and to decrease the cost of operation.

2.1.4.2 The tariff in respect of EV charging is re-determined in line with the revised guidelines in Para 7 of the of the Ministry of Power vide No.12/2/2018-EV

dt.14.01.2022 that the total electricity charges to the users shall not exceed the ‘Average Cost of Supply’.

2.1.4.3 The GoTN, vide its letter No.1633/D1/2023,Dated 19.06.2023, on the Tariff for Public EV Charging Stations, requested to take into consideration the revised guidelines issued by the Ministry of Power and the concession granted under the Tamil Nadu e-Vehicle Policy,2023 while exercising the tariff redetermination.

2.1.4.4 Taking into consideration of all the above policies, guidelines and standards, suggestions on the EV Charging Tariff, the Commission decided the following methodology to fix the tariff for EV Charging under HT Tariff V and LT Tariff VII

- a. To fix the tariff which shall not exceed the Average Cost of Supply(ACoS) as per the guideline given by the MoP, GoI.
- b. To continue with two part tariff, and to give effect for reduction in demand charges by 75% as per the GoTN EV Policy, 2023 and the policy directive.

2.2 APPLICABLE RATE OF INFLATION

2.2.1 The Commission hereby applies the following rate of escalation, based on CPI and cap of 6%:

Table 1: Applicable rate of tariff escalation

Particulars	Unit	Number	Reference
CPI (General) Index for August 2022	-	174.3	Ministry of Statistics and Programme Implementation (MoSPI, Govt. of India) - Consumer Price Index Numbers on Base 2012 =100 for Rural, Urban and Combined for the months of August 2022 and April 2023
CPI (General) Index for April 2023	-	178.1	
CPI Inflation from August 2022 to April 2023	%	2.18%	
Maximum allowed escalation	%	6%	TANGEDCO Tariff Order 2022
Escalation applied on tariff for FY 2023-24	%	2.18%	MIN (CPI Inflation, 6%)

2.2.2 Thus, the rate of 2.18 % is applied to both energy charges and fixed charges, to arrive at the new Tariff Schedule.
